# Global

Lindsay Clandfield, Amanda Jeffries, Jackie McAvo, Kate Pickering and Rebecca Robb Benne

**Global** is a new six-level general English course for adult learners. It is an information-rich course, sophisticated in both presentation and approach. It has an international appeal, combining challenging content, intelligent topics and cross-cultural awareness. It features none of the celebrity-driven lifestyle content often found in typical general English courses for adults.

The **Global** approach is fully aware of the needs of today's learners, and places an emphasis on effective communication in English between both native and non-native speakers. **Global** helps users to learn English, to learn about English and to learn through English, and is the ideal course for students who want to communicate in a global environment.

**Key Features**

- > A **Coursebook** with 15 units containing topics that have been chosen to appeal an adult learner's curiosity, and to reflect material that they would naturally read for pleasure in their native language. Critical thinking skills are promoted through the choice of topics and the way the material is exploited
- > An **eWorkbook** with listening and video material which can be viewed on a computer or downloaded to portable devices such as iPods for 'on the go' study; interactive grammar and language practice activities; 'how to' sections focusing on specific topics such as writing skills and printable worksheets for further study and practice. They are mainly intended for self study or home study
- > A comprehensive **Teacher's Book** pack contains a wide range of materials for teachers using the course. These include background information and language notes, lesson plans, answer key and ideas for adapting global activities to local contexts. There are also specialist essays, focusing on key aspects of language teaching, written by a range of well-known and award-winning ELT guest authors and teacher trainers
- > A **Teacher's Resource CD** comes with the **Teacher's Book** containing photocopiable worksheets, with a mixture of unit-specific and more general activities and tests
- > A **Digital version** allows teachers to display the **Coursebook** pages while also making all of the associated multimedia assets (audio, video, interactive activities) instantly accessible. It can be used with any make of interactive whiteboard or even with a simple projector and laptop combination
- > 3 **Audio CDs** per level

## GLOBAL VOICES

Today English is just as often used for communication between L2 speakers, and this is recognized throughout **Global**. The 'Global Voices' sections give students the opportunity to listen to a range of authentic recordings of both native and non-native speakers of English.
