### **Macmillan Study Dictionary**

**Upper intermediate** 

Michael Rundell (Editor-in-Chief) and Gwyneth Fox (Associate Editor)

**Macmillan Study Dictionary** is a two-colour English dictionary suitable for upper secondary and university students who study their subjects in English. Packed with curriculum words and a major encyclopedic section, it is the complete reference source for students at this level.

#### **Key Features**

- > Over 10,000 words, meanings and phrases
- > More than 150 two-colour technical illustrations explain complex topics at a glance
- > Thousands of subject-specific words drawn from secondary syllabuses for all subjects
- > Clear definitions with example sentences based on authentic English
- > Example sentences are relevant to students throughout the world
- > Collocations are shown in bold within entries, to help students speak and write more naturally
- > Definitions are easy to understand while being technically accurate and using appropriate terminology. They are written using a restricted vocabulary of 3,000 words and their accuracy has been checked by expert consultants
- > A 24-page **Study Skills** section covers exam preparation, essay and letter writing, presenting CVs, dealing with data, ICT, and taking notes
- > A 13-page **Reference** section includes the Periodic Table, SI units and conversions, irregular verbs and pronunciation table
- > The CD-ROM combines the full text of the dictionary with recorded pronunciations of every headword in British and American English. Users can search for words in a particular topic area. All illustrations from the book are included, and additional animations help explain some of the technical vocabulary. The content of the dictionary's Study Skills and Reference sections are included in a searchable format with interactive full-colour maps
